

WEEK-END

MORBIHAN GULF TOUR

17 & 18 june

2 days / 60km

REQUIRED LEVEL

ROUTE

This tour offers a 60km tour in the Morbihan Gulf, this 11500 hectares inland sea which was shaped 8000 years ago around the rivers of Vannes, Noyal and Auray. You will row along the coasts of the Ile aux Moines and Ile d'Arz, the two major islands out of the 42 existing in the Gulf - according to geographers - or 365 - according to legend! All those different islands will create for you a unique scenery mixing land and sea where you will discover a rich heritage : you may indeed navigate alongside «sinagos» of «guepards», both local typical boats, you may also glimpse grey herons, aigrettes, stilts or ibis, come across a chapel, a tide mill, a typical granite house and the square tour which overlooks the gulf waters. At the whim of the tide you will discover these ever-changing landscapes, where water invades lands in a ballet of colors from deep green to turquoise..

SIGHTSEEING

If you are interested in early history you can have a look at dolmens and megalithic monuments. If your heart goes to more recent periods you can visit Vannes and discover the History of Brittany. You will find in its harbor old sailboats which will tell you all about the sea as it used to be. Thousands of hectares of rocks, beaches, saline and herbarium shelter around 150 000 sea birds : stilts, little egrets, grey herons, ibis, cormorants...

Between land and sea, come and wander among the 365 islands of this «little sea» that is «Mor Bihan» in breton, and where, according to legend, is where fairy tears came from.
